ODYSSEY

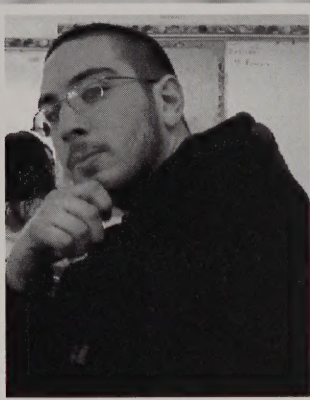

Dedication

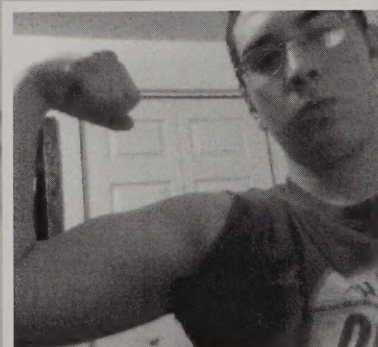

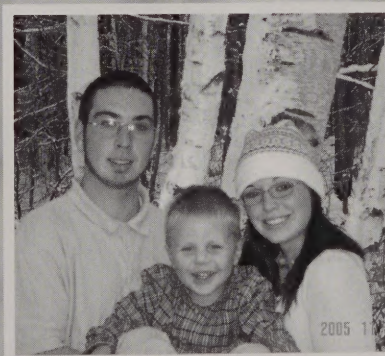

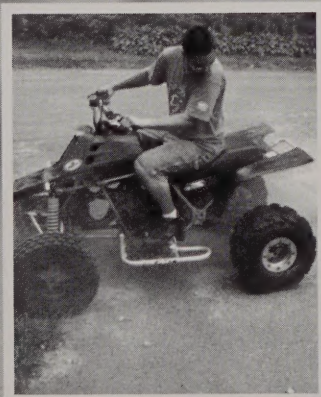

Rest In Peace

Eric Mitchell

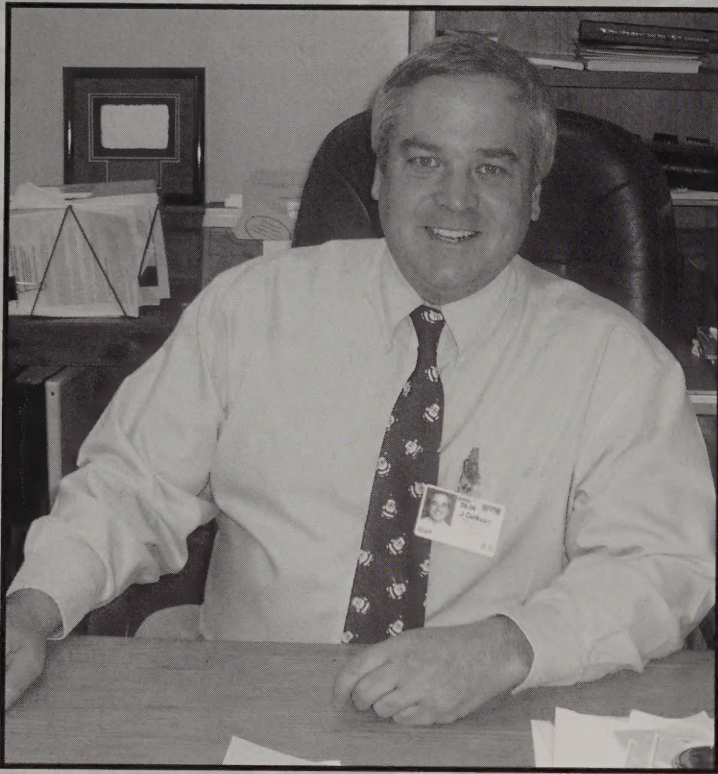

2/10/89 - 3/19/06

The Class of 2007 would like to dedicate the yearbook in memory of Eric Mitchell. Whether you knew him or just knew of him, he was an extremely caring person. Eric was very family oriented and thoughtful of those around him. He would do anything to put a smile on the face of someone who was down and he loved to make people laugh. Eric was also a man of his word, if he said he was going to be there, he was there. He knew what it was like to work hard for the things he wanted and everything he owned, he earned. In the Plumbing Shop, he was always the first to volunteer for the jobs no one else wanted to do, and learned as much as he could from them. There is no doubt about it, Eric Mitchell is missed and will NEVER be forgotten.

Monty Tech

James R. Culkeen
Superintendent-Director

To the Class of 2007:

Congratulations! Each and every one of you should be proud of what you have accomplished at Monty Tech. In addition to a high school diploma, you have attained a vocational career and technical skills that will last you a lifetime. The combination of your academic/vocational skills makes you a unique and valued member of the workforce.

As a Monty Tech graduate, I hope that you will continue your lifelong learning and continue to expand the talents you have acquired at Monty Tech. Never hesitate to return to Monty Tech to share your future successes and to solicit our continued support.

I wish you a life full of happiness, health, and continued success.

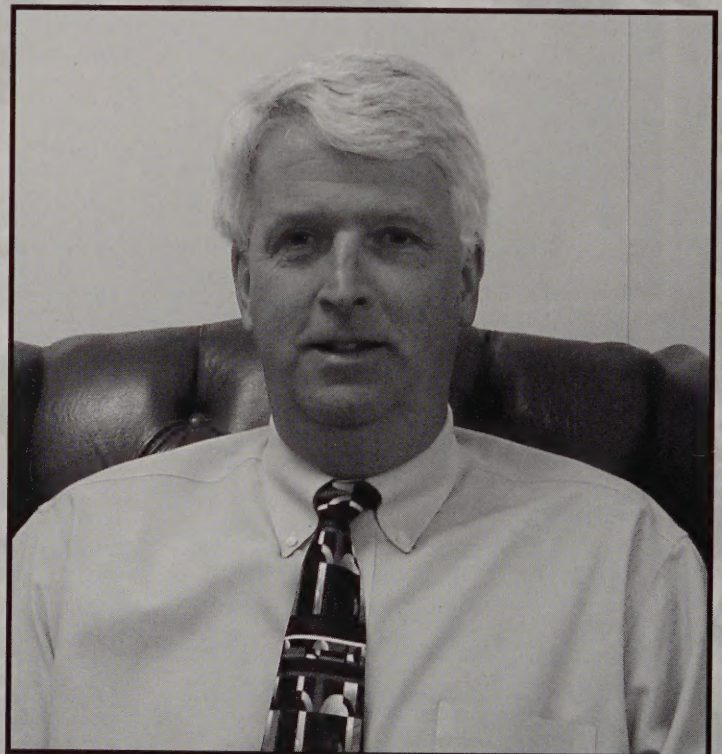

Sincerely,
James R. Culkeen
Superintendent-Director

The Class of 2007 has much to be proud of. Not only is this the largest group of seniors to ever graduate from Monty Tech, it has also been one of the most productive. You have led the way as we increased the standards in the career/technology and academic programs. You were the first to have over ninety-five percent attendance for the junior year and your class participated in athletics, extra-curricular activities, and community service projects in record numbers. You should be proud of your accomplishments and confident in your skills and abilities.

Many of you have developed positive relationships with your teachers and administrators over the last four years. I encourage you to take a few minutes before you leave Monty Tech to thank them for their support.

I have enjoyed watching you grow into fine young adults and wish each of you the very best in your future endeavors.

Best wishes to the Class of 2007!

Shop was the best, fixing the old rust buckets and making them into something new. Friends I will never forget; Ryan, Mark, Billy, Jeremy, Pork Chop. Future Ambition: I don't know. I would like to have lots of money while working as little as possible, but that's everyone's goal. I'd have to say my most memorable school memories are from Vica, starting with the incredibly boring opening and closing ceremonies. Also, the craziness in the hotel rooms and at the dances were pretty memorable. I'll bet my hearing was damaged from the music being so loud, even after they blew out a speaker and just kept on blasting music. Those were good times.

First, I would like to thank God for the many blessings He has given me. I want to thank my parents and grandparents for pushing me and giving me good advice. For my parents being there whenever I need them. Also, having them made me realize the real meaning of life and because of them, they've made me the person I am today. My electrical teachers have been real great. They all taught me a lot. For all the electrical boys we had some good times. Going out to eat at all the buffet restaurants on half days. We sure stuffed ourselves. First Sergeant Jorner, thank you for inspiring me. Fun times on the JROTC trips, and some memories that should only be shared with other ROTC cadets. I'll always remember the inside jokes, not being too insecure to wear a giant purple Mohawk, not caring how it sounded when I sang really loud through the halls, always being whoever and whatever I wanted to be. I don't know what I would have done without the fearsome four to make my days more comical, the Cosmo girls to show me you really can depend on others, my teachers pushing me, Jarred always helping me stay positive, and most of all my parents loving me. Even though there has been so much drama and anger between the shop girls, I still had fun. I am proud to be part of a fun-loving, dramatic, dysfunctional, PMSing family. I want to thank all of you girls for being there when needed. You girls taught me how to look at life from a different perspective. I also want to thank my instructors, new and old, for all you have done for me, for dealing with each and every one of us. To all my friends out of shop, I'll miss you all and we had some good times. But the one person that I want to thank is my mother, for guiding me through all the events, good and bad. Well, I guess this is the end, I love you all and I will most definitely miss everyone. First off, I want to thank God for my beautiful twins (Jeniah & Jiana). My daughters are the reason why I am more motivated than ever. They are what keeps me strong. I also want to thank him for giving me the strength & courage that I need to finish this year off. And especially the energy to wake up & come to school after waking up three times in the middle of the night to do my job as a mom. The next person I want to thank is Mrs. Reyes for being such great help to me. Thank you so much without your help I probably wouldn't be in school. Also thanks to my teachers who understood my situation and helped me get back on track. My memories at Monty Tech were the 94.5 dance, the time we went to watch a play in Worcester. Mr. Zibel calling me "Big Red" the projects we had in his class. The time I was shocked that I was on honor roll all year. The time I was so nervous to work on clients, our competitions. I want to let my family know that this is it "I made it" & with two babies. All the times they doubted me & I proved them wrong. All the struggles & battles between home & school, my daughters, my mother, my brother and I the father of my daughters etc. & I'm still focused. I'd wake up to a new day with a positive attitude & now everything paid off for me. I am, for the first time ever proud of what I've accomplished. Whenever my daughters get older I want them to look at this yearbook and be proud to see their mother in this specific book year & picture. I want them to do the graduate & if we are still around they will be coming here. I am going to miss the school my friends teachers and most of all Mrs. Reyes. Thank you so much everyone for all your help & support. I am now leaving with my memories.

I have had an unforgettable four years in this school. I've had a lot of great times with some of my closest friends in shop, with sharing stories and even coming up with our own language "PLAMENTE." I've played football for a few years, and I haven't ever played, for a team with so much heart as we do. I would like to thank Coach Carroll and Bear for being there for us, through good times and bad. I'd like to thank my shop teachers Mr. Frawley, Dolen, Briggs, and Martin. They have always been there for us. And most of all, my parents, they have been there forever. Thank you for everything. Best friends, Carl, Mellor, Harrison Lock, Beth Cravacila, I love you Beth.

Here's to the moments spent, not wasted, doing nothing at all. To the slushy runs, random nights, Athol weekends, and the people for which I bothered to show up to school every day. To the Role-Plays, short-ended commitments, and genius ideas that left us with nothing to show by the end of the year, except a good time and a couple of laughs. But most of all; here's to being able to say that whatever we did, we did it together.

First I would like to thank God for giving me life. Then my mom for the love and support and my two brothers Abner and Elvin. Then my shop teachers, Mr. Dolan, Frawley, Briggs, and Mr. Martin, for teaching what I know about plumbing. I will never forget the fun I had in shop with my classmates, and the fun I had during football and track season. I would like to take this moment and remember our fellow classmate Erick Mitchell R.I.P. Never be forgotten. Last but not least to people that are looking down at me from heaven. My uncle (Tio Miguel) and my dad (Papi te quiero mucho). I did this for you dad. I love you and miss you and will never forget you.

First of all I'd like say thanks to all my teachers and coaches, it's been a great four years. I wouldn't be at the point I am today without your help and all you've taught me. Next I would like to thank all my friends (you know who you are) for being there for me through everything. If I didn't have any of you I don't think I could have made it as far as I have. I love you and will miss you all! Last but definitely not least I'd like to thank my parents (Dad, Mom, and John) for all their love and support, without them I wouldn't be where I'm at today. I have grown so much over these four years and will never forget all that I have learned, all the friends I made and all the memories we made together. I cannot believe these four years are over already, it has gone by so fast. From friends to fighting, from boyfriends to drama, from tears to laughter, it has been interesting to say the least. First I want to thank my family, I couldn't have gotten this far without you, I love you. Mr. Bean, Mr. H, & Mr. Starr, thank you for believing in me and pushing me to my full potential. Mrs. Revell, Mr. McLinden, & Mrs. deDeigo, you are all amazing teachers, thank you for everything you have taught me & for going above and beyond my expectations. Mr. T, thank you for listening & helping through everything these four years, it would have been pretty difficult with you! Everyone in shop, you have gone from being complete strangers to being like my second family, I'll never forget ANY of you or our crazy times. My Ladies, you know who you all are, so many good times, I love you all! Ashley, we have our ups and downs but no matter what happens you'll always be my best friend. Aaron, we've had our good times and our bad times and some pretty amazing memories. You are truly my everything and we're going to grow old together. I love you. To the greatest friends I could ask for: Craig, Katt, Kevin, Marc, Freddy, Jess, Corey, Alex, Bergeron, you guys have made the year fly by, I wish it didn't have to end. I love all you guys. Thank you Hobbs, Baer, Stockdale, and Corp L.A. Rose for the great education you have given me. I will never forget the advice or the many stories I have heard. I will never forget that night at the mall, the mail box, monster land, rides home in the neon, "who threw the juice?", Mr. A's 7-8 class, he been waiting for our sign out day since 2005. These have been some of the greatest times in my life, I'm proud to be part of the class of '07. To all the Auto Tech underclassmen keep the teachers happy, win competitions and maybe you too can make \$8 an hour. Everyday you may make progress. Every step maybe painful. Yet there will stretch out before you an ever-enlightening, ever-ascending, ever-improving path. You know you will never get to the end of the journey. But this, so far from discouraging, only adds to the joy and glory of the climb.

Dear Everyone,

If you are reading this, whether the year is 2010 or 2100, and if I have done something for you to hate me, you have my full permission to punch me in the gut. That being out of the way, I just want to say what is on my mind in this farewell to most of you for the remainder of our lives. When I started here, Monty Tech was a wrecking ball of new people, places, and ideas to my world. This wrecking ball shattered the politically correct world that my family, and the Catholic school I went to built around my fragile little mind. My fragile little mind was exposed to things that the yearbook staff would most likely edit out, but I'm sure that some of you know what I'm talking about. However, the experience was not all that bad. For from it, from the ashes a new way of looking at the world has risen that shall serve me well. I learned how to deal with people and what makes up a good life, at least from this point of view. I got to meet people from a wide range of backgrounds, from football jocks to computer geeks, and I learned that people are not always who they seem. Moving on, the people that I will probably miss the most are my friends Evan, Jen, Fred, Carl, and Leanne; I will also miss anyone who I had the chance to meet over the past four years including shop teachers and most academic teachers. Sincerely, AWP

"Dun dun dun... Finally done with school. Well, since I transferred into this school, I got shafted into my fourth picked shop. Well, so long yatta yatta. Later boys, it's been fun. To my friends, you know who you are. Have fun and live life the way you want to. To the unlucky folks, like my brother who graduates in two years, have fun with Mr. G and Mr. D. "Exit light, enter night, take my hand, off to never never land."- Enter Sandman. Above is part of a quote from my older brother, as you can see he isn't so good at this kind of thing so he had to fill it up with lyrics. So anyways, I guess I can relate to what he's saying for the most part. It's over, but it's really just begun. So guys and gals, do what you want, cause' a pirate is free!

Mommy's little baby, oh yes you were,
Filled with pride and joy with her new baby

She left you a legacy of beauty and brains.

How proud I was, the day you became,
My daughter for life, and your mother forever.

Your Dad has gone grayer, I'm sure you've
helped that, he's always been there for you,
through the good and the bad.
